The MedPOINT web portal will no longer support LaSalle referrals as of 5PM on Friday, 11/30/2012. If you try to log on after that time, you will receive an error message. However, everything in the MedPOINT system will be transferred to the NMM system over the weekend and the new NMM web portal will be active at 8:00 am, Monday 12/3/2012. (NMM needs the weekend to transfer all the data.) This means that all your referrals, past or pending authorizations will be in the new NMM web portal for you to look up just as you have in the past. You do not need to resubmit previously submitted referrals. Monday morning you will be able to enter new requests.

All authorizations for procedures and referrals previously obtained will be honored and do not require resubmission.

Your user logon will remain the same as the one you have been using for the MedPOINT web portal.

You will however, have to create a new password for the new web portal. You must call (626) 943-6046 or you can also call (626) 282-0288, and press option 3 to obtain a new password for your user logon.

You can also download the LaSalle Portal user guide at [https://www.nmm.cc/Portal\\_LSMA](https://www.nmm.cc/Portal_LSMA) or you can view the PDF version of the user guide at [www.LaSallemedicalassociates.com](http://www.LaSallemedicalassociates.com).
