

November 12, 2012

Dear Valued LaSalle Medical Associates Provider:

This is a follow up to the letter that was issued on October 17, 2012, in terms of our transition from MedPOINT Management to Network Medical Management. The intent of this letter is to provide more details on the anticipated MSO transition.

Our December 1st transition date is on schedule and all meetings regarding the transition have been successful.

Network Medical Management will have:

- 1) a new P.O. Box
- 2) new fax, phone
- 3) web portal, and a new Office Ally identification number for our providers to utilize.

There will be a final letter issued to our provider network on November 20, 2012, regarding descriptive details for training of the web portal as well as any new numbers our providers will need to stay connected to our network. LaSalle remains committed to keeping this transition of MSO's as seamless as possible to our provider network and will continue to address any concerns our providers might have regarding the transition. Please visit our website at www.LasalleMedicalAssociates.com for any future updates. If you have any questions, don't hesitate to contact our Director of Network Development, Victor Madero at (909) 380-8011 or our direct corporate phone number at (909) 890-0407.

In consideration of all our loyal providers, the process of changing MSO's is being treated more like a gradual evolution than an abrupt change. LaSalle will be hosting physician dinners in each of the regions we do business in with you and look forward to seeing all of you really soon. Further details from my office will be forthcoming.

Once again: our sincere thanks to all of our network of providers for the excellent care given to our patients.

Sincerely,

Albert H. Arteaga, M.D.
President and Chief Executive Officer
LaSalle Medical Associates
